DATE MAILED:

**Please find below and/or attached an Office communication concerning this application or proceeding.**

Commissioner for Patents

1) The amendment filed on 1/16/07 amending claim 1 (Group I), canceling claims 3-12 (Group I), and adding new claims 51-60 is non-responsive (MPEP § 821.03). The amendment to claim 1 incorporating method steps 1-5 reads on previous Group V (canceled claim 30), thus claims 1-2, 51-54 (new), and 59-60 (new) now read on nonelected Group V. Claims 55-58 (new) read on nonelected Group III. Therefore, the remaining claims are not readable on the elected invention because the claims which received an Office action on the merits were drawn to a method of countering the development of resistance in a parent target to a parent neutralizing agent. The present claims are drawn to methods of producing improved neutralizing agents. The present specification (pg. 8) states: "resistance can be measured using...neutralizing assays". Thus, one of skill in the art would expect a "method of countering the development of resistance in a parent target to a parent neutralizing agent" to comprise some method steps resulting in performing a neutralizing assay (e.g. measuring for a infectivity, activity, etc.) which the present claims lack. The Restriction Requirement mailed on 3/22/06 indicated Group I is a "process of using" (see D and F) and not a "process of making".

2) Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

3) Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amber Steele (571-272-5538). If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Doug Schultz, can be reached at 571-272-0763. The fax number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). ADS April 6, 2007
